## Experience

### **Program Manager at W. Capra Consulting Group**

November 2011 - Present (4 years 2 months)

Strategic consulting to the leadership team on the development of Information Management strategies and roadmaps for BP's Whiting Refinery

### **Compliance and Process Safety Solutions Manager at BP**

September 2010 - May 2011 (9 months)

Identify and develop IT solutions to improve compliance and process safety activities in BP's refineries.

### **Refining OMS Technology Enablement Lead at BP Refining & Marketing**

2006 - May 2011 (5 years)

Led a team of 40-50 IT professionals to develop the systems required to support BP Refining's Operating Management System initiative. We successfully implemented the first system to be used by all 11 of BP's refineries in the US, Europe and Australia.

### **IT Section Chief, Mobile ICP, MC252 at BP, PLC**

2010 - 2010 (less than a year)

Led a team of 75 IT professionals who provided all Telecommunications (internet, telephone and radio), computer and A/V support for BP's Incident Command Post in Mobile, AL as part of BP's response to the Macondo oil spill in the Gulf of Mexico. This included direct support of the 1700 people stationed at that post, as well as supplying all field offices across Mississippi, Alabama and Florida with the equipment required to carry out shoreline protection, remediation and wildlife assistance operations.

### **OMS Technology Implementation Lead at bp plc**

August 2006 - December 2009 (3 years 5 months)

Development and implementation of the technology platform for the implementation of BP's Operating Management System across its global refining network.

### **Refining Systems at BP - Downstream Digital Business**

1999 - 2002 (3 years)

Managed all IT Services delivered to BP's 9 North American refineries at the time of the BP/Amoco merger. Major accomplishments were outsourcing of the Amoco IT department, divestment of 4 of the refineries and rationalization of the BP / Amoco Refining applications portfolio.
