

# Bill Burge

Client Services Executive at Encore Health Resources

---

## Summary

Healthcare provider IT consulting and services

---

## Experience

### **Client Services Executive at Encore Health Resources**

February 2010 - Present (5 years 11 months)

We are healthcare IT consultants and professionals who help our clients use IT to improve the quality and cost of patient care. We do this by advising on the best way to align strategy, implement systems, apply analytics, and realize value from data – value that can translate into performance improvement, care coordination, and better population management. We accelerate results and create sustainable solutions through our proven methodologies and proprietary tools. We value our people and our teams, take tremendous pride in our work, and have been named a Modern Healthcare “Best Place to Work” every single year of our existence. Finally, our client relationships are paramount. We’re not satisfied until every client is satisfied. We call that 100% referenceability.
