

Steve Andriano

Principal Consultant, The QL Group

Experience

Principal Consultant at The QL Group

September 2011 - Present (4 years 4 months)

The QL Group is an engineering consulting firm that specializes in Lean and Six Sigma training and project delivery. Our customer base includes manufacturing, distribution, and healthcare clients throughout the Midwest which exposes our engineers to a variety of industries and processes. Contact us at www.TheQLGroup.com for more information on how we can improve your key business processes.

Project Manager at Missouri Enterprise

October 1998 - August 2011 (12 years 11 months)

As a project manager for Missouri Enterprise I delivered Lean and Six Sigma services on a wide array of customer projects in manufacturing, healthcare, distribution and administration. Over 12 years of service delivery, my projects provided over \$40 million dollars of total return in the first year following project completion.

Design Verification Lab Manager at The Frigidaire Company

January 1994 - November 1998 (4 years 11 months)

As the DVLab Manager my primary responsibility was coordinating the activity for development of new products and existing product revisions for the laundry division. As an Industrial Engineer I emphasized the role of process variation into the new product development process.

Manufacturing Engineer at The Donaldson Company, Inc

January 1991 - November 1993 (2 years 11 months)

As a manufacturing engineer I provided technical support to the fabrication and assembly lines in order to assist the transition to a lean production facility. Worked in all facets of the production of transportation air cleaner housings including forming, welding, assembly, wash and paint, and packaging.

Skills & Expertise
