## Experience

### **Manager, In-Plant Support - Great Lakes Area at United States Postal Service**

August 2014 - Present (1 year)

Manager over Area Plant Support function.

### **Manager, In-Plant Support - Great Lakes Area at United States Postal Service**

August 2014 - Present (1 year)

Manager over Area Plant Support function.

### **Acting Plant Manager at United States Postal Service**

June 2013 - Present (2 years 2 months)

The Champaign P&DF processes mail for delivery in the 609, 617-619, and 624 3 digit zip service areas.

Also, Priority mail originating from Peoria 613-616 and Springfield 625-627 is processed daily. Champaign mail volume has grown by 300% over the last year due to consolidations in Bloomington and Effingham IL.

### **Plant Manager - St. Louis Network Distribution Center at United States Postal Service**

November 2012 - Present (2 years 9 months)

The St. Louis Network Distribution Center (NDC) is one of 21 NDC facilities nationwide. Coupled with the St. Louis Metro Annex we process all Package mail (Priority, First Class, Standard Post) originating from retail and commercial customers as well as all mail destinating to the Eastern half of Missouri and all of Southern Illinois. We also accept and process drop shipments of Standard/Periodical Letter trays and Flat bundles (magazines/catalogs) from large mailers sorting for the NDC service area which includes parts of Missouri, Illinois, Indiana, and Kentucky.

### **Acting Plant Manager, St. Louis Network Distribution Center at United States Postal Service**

February 2012 - November 2012 (10 months)

Processing and sortation of all Priority mail destinating to the St. Louis Area as well as Carbondale, Centralia IL, Springfield IL, Cape Girardeau, and Quincy IL service areas. Accept and process pallet drop shipments from large mailers for the NDC service area which includes Eastern Missouri, Southern Illinois, and parts of Indiana and Kentucky.

### **Manager, In Plant Support at United States Postal Service**

June 2010 - February 2012 (1 year 9 months)

Engineering Project management. Improved processes by analyzing data to fix problems with mail flows or errors in sortation. Validated transportation and identified problem sites around the country where service was below goal.

---
