Jay Logan

Corporate Services Senior Manager at Associated Wholesale Grocers

1 person has recommended Jay

"Jay reported to me at Millard Refrigerated Services. Jay was an invaluable asset and one our department could not live without. We were blessed to have Jay's tenacity and intellect for data mining and project management. Millions of dollars were annually brought to the bottom line due to the project Jay was the lead on. Jay's skill sets range from Engineered Labor Standards, Employee training, SOP documentations, Six Sigma project management, to overall Management rapport necessary for project and process ownership. I look forward to working with Jay in the future."
