Lauren Stolze

Supply Chain Management Analyst at Boeing
St Charles

Summary

Eight years experience in Supply Chain Management with an educational background in Industrial and Manufacturing Systems Engineering.

Experience

Boeing

Supply Chain Management Analyst

February 2007 - Present (13 years 10 months)

Berkeley, MO

Lauren works as a Supply Chain Management Analyst and Lean Focal for the Production Control organization, supporting the F-18 and F-15 Flight Ramp Operations in St. Louis, MO. As a Supply Chain Lean Focal, Lauren takes on multiple leadership roles as a project manager, implementing kitting, pull, supplier alignment, radio-frequency identification (RFID) tracking solutions, and addressing continuous improvement opportunities. Lauren is also the Inventory and Supply Focal for the F-15 St. Louis Lean Manufacturing Assessment, which reviews efforts and identifies additional opportunities to reduce waste and produce cost effective products. In addition, she ensures the daily coordination to the supply chain through the utilization of the enterprise resource planning systems by evaluating requirements and resource availability.

NORDYNE International, Inc.
